SITUATION SUMMARY

Northern California Weather of Concern

A low pressure system in the eastern Pacific will bring cooler, wet weather to Interior Northern California beyond midweek. Ahead of the storm, breezy conditions and low humidity into Wednesday evening will increase the potential for fires to develop and spread rapidly. Precipitation potential for Interior Northern California increases in the Coastal mountains today, 09/24/14, spreading over much of the forecast area into Thursday. Scattered showers and mountain thunderstorms are possible Friday.

Potential Impacts

- Fire weather concerns Wednesday ahead of storm.
 - Potential aggressive wildfire growth in the mountains.
 - A Red Flag Warning is in effect for the West Slope of the Sierra Nevada until 2000 hours Wednesday for wind and low relative humidity. This Warning extends from the Burney Basin to north of Yosemite for elevations above 3000 ft. Humidity 15-25 percent and southwest winds 15 to 25 mph with gusts 35 to 45 MPH. These conditions have potential to cause rapid fire growth over existing fires, especially the King Fire.
- Moderate to strong winds
 - Moderate to strong winds will provide an environment for rapid fire spread ahead of the rainfall today.
- Heavy precipitation
 - A prolonged period of moderate to heavy rain could result in rock slides, mudslides and flooding on burn scars from wildfires this summer and last summer.
 - Flash Flood Watch in effect through Thursday morning near wildfire burn scar areas in central, north central, southeast, and western Siskiyou County. This includes the Happy Camp, July, Beaver, and Oregon Gulch Complexes. Since the Boles Fire in Weed was on fairly level, urban terrain, impacts from the approaching storm are not a major concern there.
 - There is concern for Mud Creek on Mt. Shasta where a debris flow occurred on Saturday, 09/20/14. The rain may cause additional flows due to the destabilized canyon walls. Two staff from the NWS Medford Weather Forecast Office surveyed the area; the only expected significant impacts there will be to the two (Forest Service) roads impacted over the weekend. No adverse impacts are expected for CA Highway 89.
 - Moderate rainfall will help suppress wildfire activity, beginning this afternoon.
- Colder temperatures
 - Night time temperatures will be cool some frosts are possible at higher elevations; a widespread freeze is not expected at this time.
 - Snow levels are likely to remain high; 8,500-10,000 feet.

SITUATION SUMMARY

San Francisco International Airport Emergency Exercise

- The San Francisco International Airport will conduct an emergency full-scale exercise today, 9/24/14, from 0900 – 1230 hours, simulating an air crash. San Francisco and San Mateo counties will be participating. Cal OES Coastal Region Representative will be participating as a State Liaison in the San Mateo County EOC.

Wharf Fire, Wilmington, Los Angeles County (FINAL)

- Background: The Los Angeles City Fire Department (LAFD) declared a major emergency in response to a four-alarm fire that burned about 150 feet of wharf and threatened a steel warehouse at the Port of Los Angeles in Wilmington. The fire started at approximately 1840 hours on 09/22/14 and was located near 802 S Fries Avenue, Wilmington, Los Angeles County.
- The Los Angeles Port reports a boom was placed around the area to boom off pollutants. The wharf is being demolished, three rubbish collection boats are en-route to assist in removing debris. Air quality has left the scene. Local schools in the area are open.
- 850 Dock workers were evacuated as a precautionary measure due to heavy smoke and area residents had been advised to stay indoors with windows closed to avoid the smoke. The US Coast Guard is monitoring air quality in the immediate vicinity of the port.
- The Cal OES Southern Duty Officer and territory representative will continue to monitor the situation.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A low pressure trough and frontal boundary will move over the northwest California coast tonight and Wednesday. The frontal boundary will produce cooler temperatures and rain to northwest California tonight and Wednesday. Widespread rain will occur overnight through Thursday morning followed by the threat of showers continuing into the weekend.

San Francisco Weather:

A Pacific weather system will approach the Northern California coast today spreading rain into the northern portion of the coast by this afternoon. Rain chances will then develop south through the remainder of the San Francisco Bay Area by tonight and Thursday morning. This weather system will also produce cooler than normal daytime temperatures during the second half of the week. Dry weather is forecast to return by the weekend.

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY

Sacramento Weather:

Approaching trough will bring cooler, windy, and wetter weather for the rest of the week. Cool, unsettled weather may linger through the weekend.

Hanford Weather:

A cooling trend will begin during the second half of the week and continue into the weekend. In addition, light rain showers will be possible through at least the northern portion of the Valley on Thursday. Over the weekend the Sierra Nevada could also see light showers.

WEATHER

WEATHER SYNOPSIS BY REGION:

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A slight warming trend will continue through tomorrow then as an upper level low pressure system moves into California expect cooler conditions into the weekend with an increase in overnight low clouds and fog. After the trough passes Sunday, warmer weather is expected to return for next week.

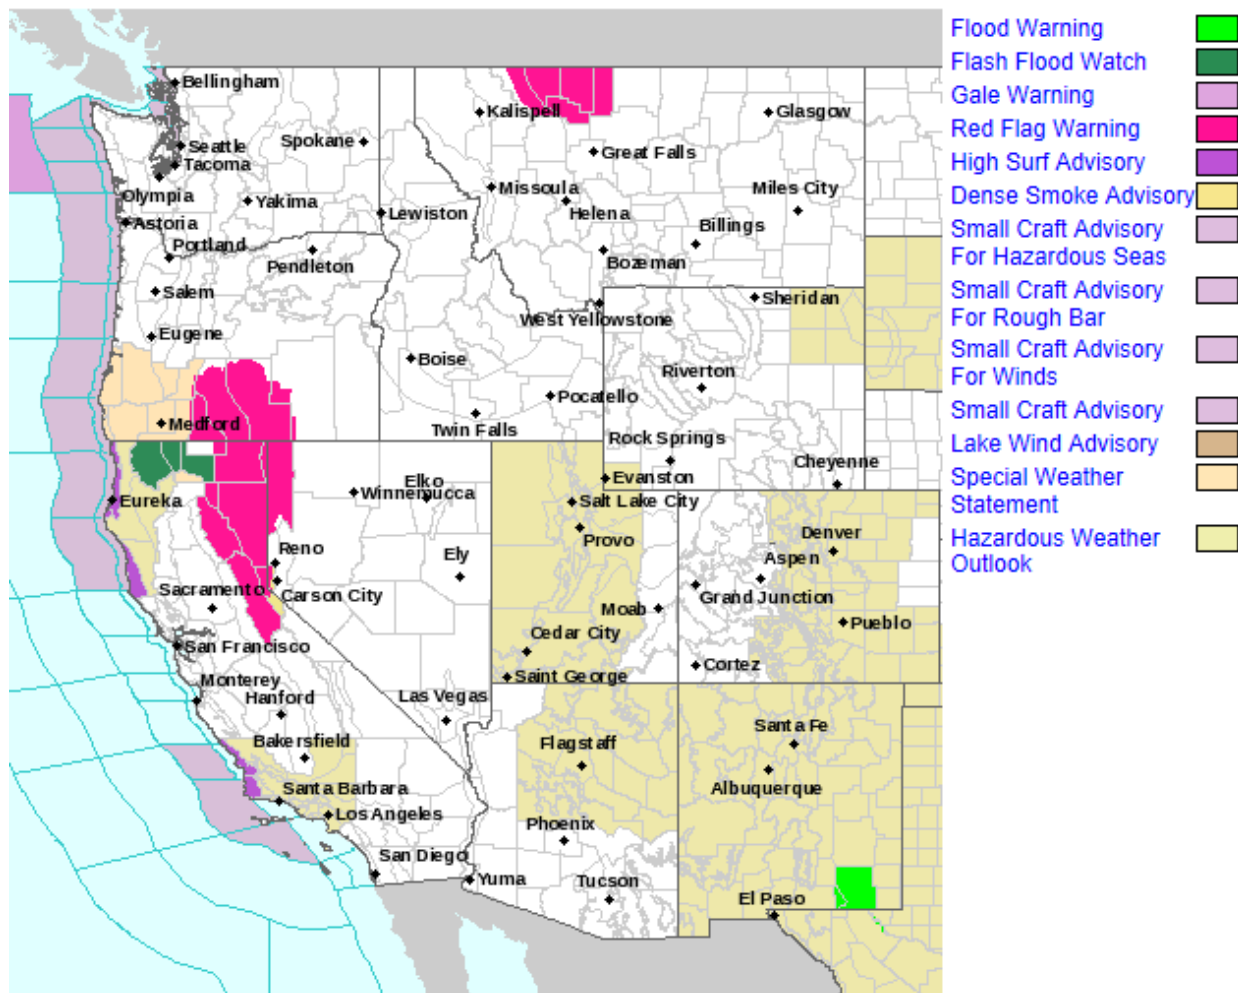

Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Fair and seasonal weather will continue under high pressure aloft. A shallow marine layer will bring areas of coastal clouds and fog. A trough of low pressure will move through California over the weekend. This will bring cooler weather to all areas much more extensive low clouds nights and mornings in the coastal basin and brisk onshore winds in the mountains and deserts. Higher pressure rebounds early next week with warmer weather and less extensive coastal clouds nights and mornings.

Southeast California Weather:

Strong high pressure system combined with a relatively dry air mass will provide mostly clear skies and above normal afternoon temperatures today and Thursday. A rather strong Pacific storm is forecast to move into California late Friday and the weekend and will provide an increasing chance of showers and thunderstorms mainly Friday night and Saturday. Drier weather with near normal temperatures are forecast Sunday through next Tuesday.

Boles Incident, Vegetation Fire- City of Weed, Siskiyou County

Cal OES Deployments

- Two (2) Cal OES Assistant Fire Chiefs are assigned.
- Three (3) Cal OES Region staff are assigned.
- Six (6) Cal OES Recovery staff are assigned to conduct initial damage estimates and an assessment of potential next steps regarding IA and PA damage assessments; assisting locals with debris management plans; communicating with voluntary organizations and with the Region and local government.
- One (1) Cal OES Public Information Officer assigned.

Activations

- Co-Located Siskiyou County and City of Weed EOC activated at Level 2.
- Cal OES Inland REOC activated to Level 2 at 0700 hours in support of Inland Region fires.
- Cal OES SOC is activated to Level 2 and staffed with the White IST at 0700 hours.

Shelter Operations

- American Red Cross Shelter - Mount Shasta Armory, 618 Everitt Memorial Hwy, Mount Shasta. Current population – 7.

Fire Suppression Water Issue

- The City of Weed lost one of its drinking water storage tanks and is drawing water from a second tank. Cal OES is working with the Drinking Water Program to assist with finding a solution to this issue. The State Water Quality Control Board, Drinking Water Program (DWP) has reached out to the city. Per DWP, the City of Weed water system has six reservoirs (storage tanks). The one that was damaged by the fire was one of their smallest reservoirs. There are no issues with the drinking water supply. The self-imposed boil water order in the downtown area is lifted. City is concerned with water supply to fight fires in the future. As an interim solution, water tenders are in place throughout the city to provide water for fire suppression.

Schools

- Weed High School and Weed Elementary School opened for normal operations on 09/23/14.
- The elementary school was partially damaged but staff will transfer classes to other parts of school.
- Students will be bussed through the fire zones.
